SUMMARY

Resourceful and solutions-oriented Computer Science & Engineering student with hands-on experience in web development. Skilled in building responsive websites using HTML, CSS, JavaScript, and React. Strong problem solver with proven teamwork, adaptability, and project execution skills.

EXPERIENCE

AI-ML Virtual Internship — AICTE (Remote)

Jan 2024 – Mar 2024

- Achieved AWS AI-ML Foundations certification accredited by AICTE.
- Worked on ML workflows including data preprocessing, model training, evaluation, and deployment.
- Built understanding of supervised and unsupervised learning techniques.

Cloud Virtual Internship — AICTE (Remote)

Sept 2023 – Nov 2023

- Completed AWS Cloud Foundations certification endorsed by AICTE.
- Learned AWS architecture, services, security, and deployment strategies.
- Gained proficiency in cloud infrastructure, networking, storage, and security.

PROJECTS

Amazon Clone

- [GitHub Repository](#)
- Achieved 95% mobile responsiveness with Flexbox and CSS Grid.
- Reduced login errors by 40% with JavaScript session management.
- Improved page load speed by 30% using JavaScript DOM and AJAX.
- Enhanced user engagement by 25% with interactive cart features.
- Employed ES6 and BEM for clean, modular code.

GoodToGo: Shopping Website

- [Live Project](#)
- HTML: Created sections for product displays, navigation, and interactive elements.
- CSS: Designed responsive layout with styled grids, menus, hover effects, and animations.
- JavaScript: Implemented dynamic product rendering, animations, and API/database integration.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Galgotias University - Greater Noida, India

SKILLS

Technical Skills: HTML, CSS, JavaScript, React, Java

Software: GitHub

Languages: English, Hindi

Platform: Windows, Linux
